

2022 solar container forum

What is the floating solar PV Forum?

The 2nd Annual Floating Solar PV Forum offers an ideal opportunity to obtain comprehensive and in-depth information about floating PV.

Is floating solar a good alternative to land-based solar?

As solar PV system prices fall and reliability improves, there is more and more pressure to find suitable sites for grid-tied centralized systems, especially in areas where land use is a critical restraint, and floating solar offers an attractive alternative to land-based systems.

What is floating solar?

Floating solar is an emerging concept that make use of a portion of surface water bodies for siting grid-tied solar energy systems.
