

American solar container prefabricated cabin manufacturer

What is a 40 ft container home with solar panels?

The 40' Off Grid Container Home with Solar Panels is designed to be versatile and customizable. You can use it as a cozy home, a vacation home, a backyard office, or anything in between. Its modular design allows you to add more containers to expand your living space. The home also has large windows to provide ample natural light and ventilation.

Who is custom container living?

Founded by Robert Wagoner in 2015, Custom Container Living is dedicated to delivering exceptional, environmentally conscious homes. From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.

What is a 40' off grid container home with solar panels?

The solar panels provide power for your lighting, appliances, and heating needs. You can also collect rainwater for your needs, which makes this home an ideal choice for those who want to live sustainably and self-sufficiently. Learn more about the specs of your 40' off grid container home with solar panels below:

What is a container home?

Each container home is built to meet the highest industry standards, from expandable homes to modular commercial spaces. Whether you're looking to create a unique living space, a functional office, or a mobile worksite solution, our skilled team and advanced technology are here to make your vision a reality.

What is a modular container house?

Achieve versatility and efficiency with Modular Container Homes. These customizable, quick-to-assemble homes suit a range of applications, making them perfect for both residential and commercial spaces. Enjoy unmatched portability with Folding Container Houses.

Are container homes eco-friendly?

Container homes are an eco-friendly alternative to traditional housing. By repurposing shipping containers, they reduce waste and the demand for new building materials. This makes them a sustainable and energy-efficient choice, especially when combined with renewable energy sources like solar panels.
