Why is Mozambique a key partner in China-Africa Cooperation?

As a key partner in China's Belt and Road Initiative (BRI) and the Forum on China-Africa Cooperation (FOCAC), Mozambique leverages its resource wealth and strategic Indian Ocean coastline to attract Chinese investment, while China seeks raw materials and market access.

How does China support Mozambique's economy?

It encourages Chinese firms to invest in Mozambique's infrastructure under public-private partnerships (PPPs) or Build-Operate-Transfer (BOT) models. Impact: Supports trade in Mozambican timber, fisheries, and graphite, and Chinese exports of machinery and electronics. Encourages currency use in trade to reduce dollar dependency.

What is central solar de Mocuba?

Central Solar de Mocuba has increased Mozambique's energy generation capacity by 40 MW and will produce approximately 79 GWh per year. The project's strategic location will reduce energy transmission losses and improve the security of energy supply in northern Mozambique and stabilize the grid.

Why did EDM join central solar de Mocuba?

It was also a unique opportunity for EDM to gain technical, commercial and practical experience in utility-scale solar solutions. Central Solar de Mocuba has increased Mozambique's energy generation capacity by 40 MW and will produce approximately 79 GWh per year.

How can private-public partnerships support economic growth in Mozambique?

Transmission bottlenecks mean that decentralised power plants based on local energy resources such as solar, hydro can be important in supplying remote regions. This is an excellent example of how private-public partnerships can deliver renewable energy and support further economic growth in Mozambique.
