

Financial leasing solar container

Why should you lease a container from SeaCo?

Seaco offers a range of flexible leasing options, to help the shipping industry cost effectively manage their existing fleet, whilst supporting supply-chain demand in the short to longer term. Seaco began leasing containers in the 1960's and is now one of the world's leading international container lessors.

What is a solar lease?

You can think of a solar lease like a car lease: It's a form of third-party ownership (TPO) where you don't own the product that you're paying for. Under a solar lease, a third-party owner (typically a solar company) installs solar panels on your property and then sells you the electricity produced at a predetermined monthly rate.

What's the difference between a finance lease and a shipping container lease?

The former allows lessees temporary use of containers, ideal for short-term needs or seasonal fluctuations in demand. On the other hand, finance leases are akin to a rent-to-own situation where lessees ultimately own the container after making regular payments over an extended period. While costs involved in shipping container leasing:

How does a solar panel lease work?

Companies calculate this rate based on the estimated annual production of your solar panel system and include this rate in your contract. Your lease will also have a fixed term length, typically 20 to 25 years.

Are solar panels a lease or a PPA?

Maintenance: If you choose a solar lease or PPA, the leasing company owns the solar panel system and typically offers a service program to cover any maintenance issues that arise during the lease term. On the other hand, if you take out a solar loan to purchase your system, you'll be responsible for its maintenance.

What is shipping container leasing?

Fundamentally, shipping container leasing is all about providing businesses with an economical solution for their freight needs. We're talking about those large, metal containers you see stacked on cargo ships or at ports. Businesses lease these from companies who specialize in such services when they have goods to transport internationally.
