

First financial solar container comments

Is first solar a good company?

First Solar's financial performance has been pretty good in recent quarters. Revenues rose 24% year-over-year in the first nine months of 2024, while net profit margins also surged to 33%, up from roughly 22% in the year-ago period.

Is first solar gaining tax credits?

First Solar has doubled down on its U.S. production and plans to open its fifth factory in the U.S. by 2026 in Louisiana, taking its total U.S. capacity to about 14 GW. The tax credits the company is gaining from doing a larger mix of module sales from the U.S. are sizable.

Does first solar have a long-term outlook for solar demand?

"Despite the near-term challenges presented by the new tariff regime, we believe that the long-term outlook for solar demand, particularly in our core U.S. market, remains strong, and that First Solar remains well-positioned to serve this demand," said Mark Widmar, Chief Executive Officer.

Is First Solar stock a good investment?

(Photo Illustration by Pavlo Gonchar/SOPA Images/LightRocket via Getty Images) First Solar stock has fared much better than its sector peers, rising by about 13% year-to-date. In comparison, Enphase Energy stock, another solar component player, has seen its stock decline by 38% over the same period.

Does first solar have a strong demand for solar?

Demand for solar has remained strong with the company recording about 4 gigawatts of bookings year-to-date, taking First Solar's bookings backlog to 73.3 GW. This gives the company considerable demand visibility.

Will first solar be selective with new bookings this year?

Given the political ambiguity, First Solar CFO Alex Bradley said the company will be highly selective with new bookings this year. The solar company is working through approximately 37.3 gigawatts of contracted volume, the majority of which will be recognized between 2026 and 2028, Bradley said.

"Despite the near-term challenges presented by the new tariff regime, we believe that the long-term outlook for solar demand, particularly in ...
