

Luxembourg city solar container photovoltaic panels

Are photovoltaic panels subsidised in Luxembourg?

The installation of photovoltaic panels is heavily subsidised by the Luxembourg government and local authorities. This practice is fully in line with the national objective of reducing greenhouse gas emissions (-55% by 2030). Consult our Guide to photovoltaic subsidies in Luxembourg (subsidies 2025).

How do solar panels work in Luxembourg?

To put it plainly: owners of solar panels consume the energy produced by their panels directly. If there is any electricity left over, it is sold back to the grid at a rate set by the government. This is the most subsidised in Luxembourg. This system has a number of advantages: It also enables them to generate additional income.

Are photovoltaic panels and self-consumption compatible with all electricity suppliers in Luxembourg?

Photovoltaic panels and self-consumption are compatible with all electricity suppliers in Luxembourg. However, some are more suitable than others because they can : Invest part of your subscription in the development of power stations in Luxembourg and in the Grande Région (wind farms, solar panel farms, etc.).

How can Luxembourg save money on solar panels?

Luxembourg homeowners can reduce their electricity bills and sell surplus production thanks to the self-consumption model. The government is proposing subsidies covering up to 80% of installation costs with an estimated return on investment of between 5 and 7 years. How steep should the roof be for solar panels?

Why should you choose a solar & thermal renovation company in Luxembourg?

Our integrated solutions help homeowners and businesses in Luxembourg reduce energy bills, increase property value, and achieve long-term sustainability. We guide you through every step - from design to installation - and assist with subsidies and tax incentives, making your switch to solar and thermal renovation smooth and affordable.

Who is solarcells?

SolarCells is the first producer of photovoltaic panels in Luxembourg, located in Hollerich. We manufacture high-quality panels using European components, certified with IEC standards, offering yields exceeding 400 Wc.

The price of solar panels in Luxembourg in 2025 Prices by type of solar installation (2025 prices) It is generally necessary to count between EUR2,100 and EUR2,300 per kWp (kilowatt-peak or peak power) of ...

Luxembourg is ramping up its financial incentives and making the installation of solar panels a very profitable investment until 2025.

Luxembourg city solar container photovoltaic panels

I heard from many installers that the solar panel choices they will make for the quote will simply just depend on whatever they have in stock in-house at that moment. That's very stupid.
