

Solar container cabinet with air conditioning

What is a solar energy Battery Cabinet?

The solar energy battery cabinet was designed for battery installations, due to a cabinet of this design's scarce availability that was suitable for a variety of lithium-ion batteries. The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

What is a container air conditioner?

The container air conditioner is specially developed for factory prefabricated modules. It's suitable for all walks of life that require factory prefabrication and modularization, such as energy, electricity, communication, experimental research, plant cultivation, and new retail. Parameters: Ambient range: Standard is -15?~+55?.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.
