

Solar container concept gem

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

What is solar gem?

Created in 2015, Solar GEM offers an innovative solution adapted to local conditions. Integrating the expectations of the off-grid market and electrification of isolated or severe environments, it is an independent entity to provide a plug and play solar solutions that address the specific issues related to that market.

Who is solarcont GmbH?

SolarCont GmbH was created through a cooperation between the two successful companies Hilber Solar GmbH from beautiful Tyrol and the company Gföllner Fahrzeugbau und Containertechnik GmbH, which is deeply rooted in Upper Austria. This cooperation makes it possible to develop a completely new type of mobile solar system.

How does solar gem protect against a cyclone?

Solar GEM offers a protection from climate events: the structure supporting the photovoltaic modules simply needs to be folded back into the containers, and the cyclone can pass through. Once milder weather conditions return, the structure is re-deployed to bring the power plant back into operation.

How many kWp is a solar gem unit?

One Solar GEM unit is containing 83 kWp solar. We are improving our technology based on state of the art Solar ... Operation in off-grid area are largely powered by diesel. This has a high environmental impact and economical cost. Solar GEM has been designed to provide operators with an elegant and cost effective solution.

How many installers does a solarcontainer need?

At least 3-4 installers and 1 crane operator are needed to put the Solarcontainer into operation within one day. How many households can one Solarcontainer supply with electricity?

Meet the strategic partners who help deploy and support Solar GEM solutions around the world -- from Sub-Saharan Africa to Europe and beyond.
