

This paper presents a comprehensive review of the current regulations and the various technologies as well as the decision support methods for each technology the maritime industry ...

The presented article is an analytical calculation of the performance of a multifunctional container with solar modules. The topic of the article is relevant and may be of interest to specialists ...

It examines innovations in solar-powered desalination, considering both solar photovoltaic (PV) and solar thermal technologies, in combination with traditional thermal desalination ...

Abstract: Seasons of China is an epic documentary series produced by CNC, which focuses on the 24 solar terms in China and traditional Chinese culture. With both Chinese and English dialogues and ...

The study is an exploratory attempt to understand the industry with strategic steps to the targets of the business environment and the ones that are tried to have an essential impression ...

The review concludes that the application of solar energy in the oil and gas industry presents a very good opportunity for future business of the renewable energy industry. These ...

With the growth of solar photovoltaics (PV) in recent years as the largest power source by capacity added, the energy-industry transition towards high sustainability is accelerating. ...

Solar distillation is a technique used to obtain purified water from salty or contaminated water (Tiwari and Tiwari 2007). This process uses solar energy to heat water; the solar still works by ...

The cost of renewable energy technologies such as wind and solar is falling significantly over the decade and this can have a large influence on the efforts to reach sustainability. With the ...

In this work, we review thin film solar cell technologies including  $\mu$ -Si, CIGS and CdTe, starting with the evolution of each technology in Section 2, followed by a discussion of thin film solar ...

This up-to-date and comprehensive literature study provides a rich overview of recent developments in several solar still types. This review examines a large number of theoretical, ...
