

Solar container overseas jobs factory operation

Is there a career for everyone in solar?

We firmly believe that there is a career for everyone in solar, visit our jobs portal and find the one that is right for you. #SolarWorks Platform

How many solar workers do we need in Europe?

In our latest EU Solar Jobs Report, our modelling shows that we need at least 1.1 million solar workers in Europe by 2030 to meet the EU's climate targets. Ensuring the industry's sustainable growth and that Europe reaches the Terawatt of installed solar capacity it needs by 2030, will require a larger workforce.

What jobs are available in the solar value chain?

It provides an overview of the jobs available throughout the solar value chain, from manufacturing to operational, and financial roles; the skills needed to do these roles; and what qualifications are in-demand.

What is the 'solar jobs' guide?

Our 'Solar Jobs' guide presents a comprehensive list of roles in the industry and the skills required to fill them, to those interested in joining the solar industry and the fight against climate change.

What is Solarpower Europe doing?

SolarPower Europe is also launching its own Solar Skills Taskforce to pool its members' expertise on the topic, analyse the skill gap within the industry, and develop concrete policy recommendations this year. By submitting my information, I agree to the privacy policy and to learn more about products and services from SolarPower Europe.

When does solar work fair start?

The platform launched officially during the first edition of the annual #SolarWorksFair in December 2022. Solar companies in Europe and beyond are welcome to create their company profile and upload their latest open vacancies.
