

The most solar container patents

More specifically, the present disclosure is directed to a solar energy cargo system capable of receiving and storing solar energy, and powering electric or hybrid electric vehicles using the received solar ...

Abstract: A solar panel container unit comprising: one or more photovoltaic (PV) solar arrays each comprising a photovoltaic solar panel, and wherein the PV solar panel comprises a ...

Solar powered portable food container Abstract A portable food container is cooled by a solar powered refrigeration unit and includes a thermoelectric power unit and heat pipes so that the container will be ...

The present invention relates to storage and protection of electronic devices, and, more particularly, is concerned with a solar-charging storage container apparatus, such as for rechargeable mobile ...

The container for transporting semiconductor wafers of solar cells consists of a bottom (1) and guide elements for accommodating solar wafers. On the upper side of the bottom (1), parallel to the central ...
