

Yili solar container project tender announcement

Who is Yili PV?

YiLi Pv has fifteen years of experience in the research and development of solar module production equipment. We have an excellent understanding of the characteristics of each solar panel's raw material. We can train you from a novice who does not understand any solar module production technology to an experienced solar panel production expert.

What size solar cell is compatible with Yili PV?

Compatible cell size: 156-210mm. uses an advanced and high-accuracy six-axis robot combined with a high-efficiency automatic solar string layup system independently developed by YiLi Pv to meet customers' automatic layout needs for different solar cell strings. At the same time, it has a highly cost-effective advantage. 1.

Why should you choose Yili PV?

YiLi Pv has an excellent raw material supplier system, including solar cells, solar ribbons, Eva, back sheets, and solar glass. This can help customers purchase solar module raw materials of outstanding quality and affordable prices in the early stages. You can start your photovoltaic business with our 5-15MW manual production line.

How does Yili PV work?

YiLi Pv uses vacuum pumps and thermal oil heating systems imported from Germany, and it cooperates with YiLi Pv's self-developed solar laminator automatic temperature control recognition system and AI automatic adjustment parameters. Solar panels laminated by YiLi Pv laminator can accurately meet the process requirements of raw materials.

What size busbar is compatible with Yili PV?

Compatible Busbar: 2-20BB. Compatible cell size: 156-210mm. uses an advanced and high-accuracy six-axis robot combined with a high-efficiency automatic solar string layup system independently developed by YiLi Pv to meet customers' automatic layout needs for different solar cell strings. At the same time, it has a highly cost-effective advantage.

What is Yili PV laminator?

Solar panels laminated by YiLi Pv laminator can accurately meet the process requirements of raw materials. Advanced process standards extend the service life of solar panels and effectively reduce the defective rate and damage rate. It can be suitable for cutting cells of 30mm to 156.75mm soldering. 1. Real capacity could reach 1800pcs/hour. 2.

?????? China has Released a tender for Announcement On The Winning Bid (Transaction) Results Of Yili Normal University Database Construction Project (Segment 12 To ...

Yili solar container project tender announcement

Zhizhen Energy has issued a tender for a 1,000 MW Integrated PV Hydrogen Production and Ammonia Synthesis Project in Yili, Xinjiang. The project includes installations for hydrogen
